Pila > ski in the sky

The winter season has started on November, Saturday 27th 2010:

Find out what **lifts** and **pistes** are open.

Snow high: min. 60 cm. max. 130 cm.

An immense white wave for those who love flying through the snow. If you suddenly discover you have wings, don't worry - you're at Pila and there are lots of us ... it's a place for dreaming and looking at the world from high up ! The range of fun is as wide as the mountain landscape, where you can see from Mont Blanc to Gran Paradiso and as far as Monte Rosa ! Pila is a modern ski resort, always up to date with innovation and in continual evolution. It is also easy to reach - an 18 minutes cable car ride away from Aosta for a holiday blending sport, history, culture, local traditions, entertainment and gastronomy.

PILA S.p.A.

SEDE LEGALE: Fraz. Pila 16 - 11020 Gressan - Aosta - Italia
